A huge thanks to the organisations and their teams who helped make this event a success

A special thanks to our platinum sponsor:
Dear delegates,

It is an honour to welcome you to our 17th World Congress here in Birmingham!

The gathering of our global movement is a powerful opportunity to come together in our unwavering commitment to inclusion. We stand in solidarity and shine a spotlight on the exclusion of people with intellectual disabilities and their families.

The challenges we face together remain, and we continue to fight for real change in every aspect of people’s lives. The right to make decisions, the right to have a job, the right to be fully included in school, and the right to choose where to live are just some of the important issues that still need to be tackled, and they need to be tackled together.

We also come together to celebrate our successes and are united by our determination to build a better tomorrow for all. We know that wherever we live in the world, we share a common experience and a common vision.

We are delighted to welcome the International Disability and Development Consortium (IDDC). Our partnership with IDDC and its members is important. We know we cannot achieve inclusion on our own. We need allies and partners who share our passion and dedication. Our strength is in our network. Together we are making a difference.

We have designed Learn, Inspire, Lead to be responsive to what our members have been asking for – opportunities to learn new skills, to share our stories, and to talk about how we are leading the way to inclusion. We hope you enjoy the programme!

We would like to thank our partner, Inclusion Europe, and sponsor, Mencap, for helping to make this World Congress a success.

Yours sincerely,
Klaus
Dear delegates,

A very warm welcome and thank you for joining us here in Birmingham at the largest gathering of learning disability self-advocates and supporters in the world. We are thrilled to be sponsoring the 17th Inclusion International World Congress. Mencap was one of the founding members of Inclusion International, with our late president and renowned learning disability campaigner, Lord Brian Rix leading our involvement.

Despite 70 years of active campaigning, people with a learning disability are still some of the most marginalised citizens in the world. We need your help to harness the energy of learning disability experts and advocates and shine an international spotlight on opportunities for all.

The World Congress is a powerful, international platform for people to learn more about how they can change their local communities and share their stories, their trials and triumphs. It gives individuals a voice and a place where they are listened to by politicians and other influential people who can drive progress forward.

The conference will touch on many different issues facing people with a learning disability, from education and jobs to relationships. One area up for discussion is healthcare. Mencap recently launched its Treat Me Well Campaign and we hope it can highlight the desperately needed improvements in the quality of healthcare for people with a learning disability to ensure everyone gets the treatment they deserve.

We hope you leave the congress filled with vigour and inspiration to help shape the future for people who deserve to live the life they choose.

Yours sincerely,

Janine
Dear delegates,

It is my pleasure to welcome you to the 2018 World Congress on behalf of Inclusion Europe and all our members in the European region.

We were delighted when Mencap invited us to hold the most important global gathering of people with intellectual disabilities, their families and organisations here in Birmingham. It also meant we would be able to celebrate Inclusion Europe’s 30th birthday with friends from all over the world. 30 years ago, almost to the day, in May 1988, the European association was formed. On Thursday afternoon we invite you to stroll through the ‘market’ stalls provided by our members to sample some of the flavours of inclusion and of the different countries they represent. Hear the stories, meet the people, enjoy the birthday cake and pick up interesting things to take away.

This is only one of the many sessions on offer. Throughout, we will be meeting self-advocates and family members who have experienced injustice, ignorance, discrimination and indifference in whatever form it takes where they live, and who have done something remarkable to change it. We will learn about the love, talent, generosity, determination, ingenuity and solidarity that it takes to make change happen. In all of the sessions you are part of the conversation. Share your experience, ask questions, challenge, make suggestions and celebrate all that is good.

Thank you for being here and for your commitment to inclusion. I wish you a stimulating and enjoyable conference experience that strengthens all of us with new ideas, closer ties and renewed determination to build an inclusive world.

Yours sincerely,
Maureen

Inclusion Europe represents the voice of people with intellectual disabilities and their families throughout Europe.

The association currently has 71 members in 38 European countries. We fight for equal rights and full inclusion of people with intellectual disabilities and their families in all aspects of life. Inclusion Europe works in these areas:

- Legal capacity
- Inclusive education
- Independent living
- Ending poverty
- Healthy life

What we stand for

Equal rights and full inclusion of people with intellectual disabilities and their families.

The world we want to see

1. People with intellectual disabilities enjoy equal rights and fully participate in all aspects of life.

We fight for self-determination, supported decision making and restoration of legal capacity.

We demand that people with intellectual disabilities can exercise their right to vote and to stand for election.

We fight for the right to live in the community: we are against any form of segregation, especially in schools, in workplaces or in residential care institutions.

We support and develop the self-advocacy movement.

2. Family members of people with intellectual disabilities can be just that – family members.

We advocate for support in the community for people with intellectual disabilities. We advocate for recognition of the role of all family members, and of their needs. We support family members to be active in the inclusion movement.

3. People understand how to communicate with and relate to people with intellectual disabilities.
We support people with intellectual disabilities in expressing their views and experience. We highlight examples of inclusive behaviour, practices and settings. We develop and promote easy-to-read and other accessibility measures.

How we go about things

Respect – Solidarity – Inclusion

- Influence other organisations to make their policies and practice inclusive.
- Provide a platform for people with intellectual disabilities and family members.
- Include people with intellectual disabilities in our work.
- Continue to develop easy-to-read and other accessibility measures.
- Develop policies and tools to enhance inclusion.
- Raise awareness and fight prejudice or discrimination.
- Enlarge and develop the inclusion movement.
- Develop the organisation of Inclusion Europe.
- Pay attention especially to children with intellectual disabilities and to people with complex support needs in all the work we do.

The “5 Es” representing our fight for respect, solidarity and inclusion will become key topics for the years to come:

Empower 2018 | Elect 2019 | Educate 2020 | Employ 2021 | End segregation 2022
